Project 3:

Due to the economic crisis in Lebanon, it is important to open the door for women to enter the labor market.

The aim of the project is to help people, especially women, to learn new profession through the production Mouneh and handcrafts for sale.

The website offers workshops for two categories (Mouneh and Crafting)

-workshops for learning Mouneh like pickles and Kaushik production.

-Workshops for soap making, hand embroidery, and sewing.

After the trainees complete the workshop, their products will be sold online on the website.

Any one without an account can visit the website. If he wants to participate in a workshop or buy a product, he has to register an account.

The user pays little money to participate in the workshop and pays online. The trainees in the same workshop class have a group on the website for chatting.

After completing the workshop and getting ready to purchase the product, she requests the product on the page where the admin gives approval or rejection of the product.

The products are displayed on the pages after the admin accepts, users can buy products and pay online.

Projet 4: MovieMania

 Roles: Admin, User

As user i can register, login

As user can to view available/coming soon movies in the home page

As user can to browse and view detail for an available movie
